

FRANCHISE PARTNER PROGRAM

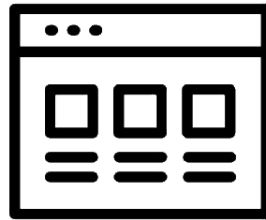

HOW WE CAN HELP YOUR FRANCHISE WITH POS

We help franchisors get point-of-sale software and hardware to their franchisees. From start to finish - you'll have an industry expert on your side.

Order Management

Save staff time and floor space by letting us handle distribution from warehousing all the way to product installation.

Custom Microsites

Streamline franchise onboarding by putting all your hardware on one page. They'll never buy the wrong product again.

Free Tier-1 Support

Save time on labor and reduce support tickets by letting us handle hardware support for items sold by us.

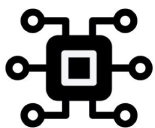

Dedicated Account Managers

You'll get a dedicated account manager who will manage all your orders. With a 20-year proven track record of operation, you can count on us to be here for you when you need it.

Custom Equipment Configuration and On-Site Installations

Pre-configuration hardware before shipping so franchisees can get plugged in and ready to go. Looking for a true white-glove service? We have access to a nationwide network of IT professionals ready to help with on-site installations.

Hardware & Software Consultation

Still developing an application? Looking to select a pre-built option that meets your needs? No matter where you're at in the process, we can advise on what software and equipment will best meet your needs.
